Brand name		Not covered

¹Plan deductible must be met before benefits are paid.

²If the cost of the prescription is less than the copay, the participant will pay the full cost of the prescription.

Do well. Do right.[®]

Glossary of terms

Coinsurance — The percentage of eligible claims you pay after you meet your deductible.

Coinsurance maximum — The most you will have to pay in a year in coinsurance for covered benefits after you meet your deductible. Once you reach your coinsurance maximum, you will still pay office visit and prescription copays.

Copay — The fixed, up-front dollar amount you pay for certain covered expenses. Office visit copay amounts do not apply toward your deductible or coinsurance maximum.

Deductible — The up-front out-of-pocket expense. Participants must meet their deductible with eligible charges before claims will be paid.

Emergency Care — Medical services from the emergency department of a hospital to evaluate a medical condition that in the absence of immediate medical attention would place the health of the individual in serious jeopardy; cause serious impairment to bodily functions; or cause serious and permanent dysfunction of any bodily organ or part.

Generic — A term used for prescription drugs identified by their chemical name. A bioequivalent to the brand-name drug made available to the public after the patent has expired on the brand-name drug. The generic version usually results in a less expensive drug.

In-network — Health care services received from a provider in a network.

Individual deductible — When an individual meets the plan amount determined to be the individual deductible, the plan will begin paying claims for that individual at the coinsurance level.

Mail order — When you need a prescription drug on an ongoing basis, you can mail your prescription to the Medco by Mail™ service to receive prescriptions for up to a 90-day supply of medication.

Network provider — A doctor, hospital or other health care facility that has entered into a contract to provide medical services or supplies at agreed upon rates to you or your covered dependents under the plan.

Non-preferred drugs — A list of prescribed medications that are not on the plan's formulary.

Preferred drugs — Also known as formulary drugs; this is a list of commonly prescribed, brand-name medications that are selected based on their clinical effectiveness and opportunities to help control your plan's costs.

Primary care physician copay — The amount you pay for an office visit to a network primary care physician such as a pediatrician, general practitioner, family practitioner, internist or gynecologist.

Retail pharmacy benefits — When you need a prescription on a short-term basis, you can fill your prescription at a local participating network pharmacy to receive prescriptions for up to a 30-day supply.

Specialist — Any physician not considered a primary care physician.

Wellness and preventive care — Covered services are based on Highmark's preventive health schedule for GuideStone.

This information only highlights the depth of coverage and benefits you can receive when you protect yourself with GuideStone. There are limitations and exclusions that apply. This is a general summary of plans that are offered. The official plan documents and insurance contracts set forth the eligibility rules, limitations, exclusions and benefits. These alone govern and control the actual operation of the plan.
