PRESCRIPTION DRUG PROGRAM¹

PRESCRIPTION DRUG PROGRAM ¹			
Retail	30-Day Supply	Generic	80% after deductible
		Preferred	80% after deductible
		Non-preferred	80% after deductible
Mail Order	90-Day Supply	Generic	80% after deductible
		Preferred	80% after deductible
		Non-preferred	80% after deductible
Specialty	30-Day Supply	Generic	80% after deductible
		Preferred	80% after deductible
		Non-preferred	80% after deductible

¹ The deductible is met by both medical and prescription drug expenses.

² For family coverage, one individual cannot be responsible for more than the 2019 ACA limit of \$7,900.

Costs for diabetic supplies bypass the deductible and pay at the co-insurance level.

If a non-generic is purchased when a generic is available, the participant must pay a penalty of the difference in drug cost of the non-generic drug over its generic equivalent. This penalty does not accumulate toward the deductible or the maximum out-of-pocket limit.

Note: This plan does not constitute "creditable coverage" for Massachusetts residents.

Do well. Do right.®

Glossary of Terms

Co-insurance — The percentage of eligible claims you pay after you meet your deductible.

Co-insurance maximum, out-of-network — The most you will have to pay in a year in out-of-network co-insurance for covered benefits after you meet your out-of-network deductible.

Co-pay — The fixed, up-front dollar amount you pay for certain covered expenses. Co-pay amounts apply after your in-network or out-of-network deductible and do not apply to your out-of-network co-insurance maximum.

Deductible for individual coverage — This applies only to an employee who has no dependents included on their coverage. The individual is responsible for paying for medical and prescription drug claim costs up to the plan's individual deductible amount before GuideStone® begins paying claims.

Deductible for family coverage — This applies to an employee who has dependents included on their coverage. The employee and dependents are responsible for paying for medical and prescription drug claim costs up to the plan's family deductible amount before GuideStone begins paying claims for anyone in the family. The family deductible may be met by one individual or by multiple family members' combined claims. This is known as an aggregate deductible.

Emergency care — Medical services from the Emergency department of a hospital to evaluate a medical condition that, in the absence of immediate medical attention, would place the health of the individual in serious jeopardy, cause serious impairment to bodily functions or cause serious and permanent dysfunction to any bodily organ or part.

Generic — A bioequivalent to the brand-name drug made available to the public after the patent has expired on the brand-name drug. The generic version usually results in a less expensive drug.

In-network — Health care services received from a provider in a network.

Mail order — Mail order is a service that allows you to refill recurring prescriptions (90-day supply) through an online pharmacy. You receive your prescriptions by mail.

Maximum out-of-pocket (medical and prescription) — The maximum out-of-pocket limit includes the deductible and co-insurance for eligible, in-network services. After the individual or family amount has been satisfied, the health plan covers all eligible, in-network health care expenses for the rest of the plan year. For family coverage, one individual cannot be responsible for more than the current IRS limit.

Network provider — A doctor, hospital or other health care facility that has entered into a contract to provide medical services or supplies at agreed-upon rates to you or your covered dependents under the plan.

Non-preferred drugs — A list of prescribed medications that are not on the plan's formulary.

Preferred drugs — Also known as formulary drugs, this is a list of commonly prescribed, brand-name medications that are selected based on their clinical effectiveness and opportunities to help control plan costs.

Retail pharmacy benefits — This refers to filling your prescriptions at a participating network pharmacy. This approach is best for short-term prescriptions (up to 30-day). You could save money by filling recurring prescriptions via mail order (see above).

Specialist — Any physician not considered a primary care physician.

Specialty drug — Specific prescriptions used to treat complex, chronic or special health conditions.

Telemedicine — The use of telephone and/or live video technology in order to provide medical care.

Urgent care — Treatment at an urgent care facility for the onset of symptoms that require prompt medical attention.

Vision exam — Covers one annual eye exam per covered family member, which may include an eye health examination, dilation and/or refraction. Coverage does not include glasses or contact lenses (unless there has been a cataract extraction), eye surgery or retinal telescreening. See the *Preventive Care Schedule* for additional vision screening coverage for children when performed by a pediatrician or primary care physician as part of an annual well-child visit.

Wellness and preventive care — Refers to the services listed on the *Preventive Care Schedule*, which are covered at 100%, not subject to the deductible. The *Preventive Care Schedule* is based on services required under the Affordable Care Act of 2010 (ACA), as amended.

This information only highlights the depth of coverage and benefits you can receive when you protect yourself with GuideStone. There are limitations and exclusions that apply. This is a general overview of plans that are offered. The official plan documents and insurance contracts set forth the eligibility rules, limitations, exclusions and benefits. These alone govern and control the actual operation of the plan.
